

**V International Ecological Forum**  
**«ECO solution - new technologies»**  
**23 – 25 of February 2011, Lviv, Ukraine**  
[eco@lemborg.ua](mailto:eco@lemborg.ua) [www.lemborg.ua](http://www.lemborg.ua)

**Organizer**

Dear Colleagues,

Exhibition Center «Lemberg» invites You to take part in V International Ecological Forum “ECO Solutions – New Technologies”, directed on promotion of world’s newest technologies, which consider human need in protection and improvement of the Ukrainian ecology.

**Support:**

Ministry of Environment  
Protection of Ukraine

Ministry of Housing and  
Communal Services of Ukraine

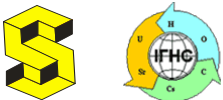

Lviv Regional  
State Administration

Lviv Regional  
State Administration of  
Environment

Co-organizers of business part:

Informational support:

**Exhibition parts**

**Energy- saving.**

- Energy-savings and resource-saving technologies, systems and equipment
- Energy-saving equipment and technologies in building, industry and municipal spheres
- Thermo electric power stations. Coppers. Burners. Diesel and steam units. Pumps. Compressors. Hydraulic equipment. Convector. Radiators. Heaters
- Computer-based systems of measure and control of energy using, control equipment. Heat and power measure equipment

**Alternative and Renewable Energy**

- Solar, wind, geothermal, bioenergetics, small hydro-electric engineering
- Repeated utilization of energy supply, energy supply economy systems
- Waste energy production
- Technologies of production and using of alternative fuel, bio-fuel, biogas

**Industrial and municipal waste**

- Collection, sorting, transportation, processing and waste utilization
- Waste recycling, waste processing technologies
- Building and using municipal waste ranges
- Restoration of municipal waste ranges and polluted territories
- Waste management
- Machines and lines for collection, sorting and transportation waste

**Municipal services**

- Engineering networks (projecting, construction, reconstruction, and usage)
- Pipe-line systems. Management of gas-, heat-, water-maintenance and water drains
- Municipal heating system
- Systems and technologies of water-supply, water-treatment for drinking and domestic needs, drainage systems, sewerage. Laboratories and technologies for water quality control. Water protection and hydro-technical constructions.
- Drain cleaning equipment, heat cleaning equipment, sewerage cleaning
- Machines for street and premises cleaning (machines for sweeping, watering and vacuum, snow-cleaning machines, vacuum cleaner, lawn-movers), multifunctional machines
- Recreation zones; municipal park technologies, children and sport areas
- Ecologically projects, scientific research, software. Financial services. Engineering, consulting, banking, leasing, insurance and expert services

## **Business program, 23-25 of February 2011**

### **Section 1. «Energy-saving. Alternative and Renewable Energy»**

Energy-saving equipment and technologies in building, industry and municipal spheres  
Solar, wind, geothermal, bioenergetics, small hydro-electric engineering  
Repeated utilization of energy supply, energy supply economy systems  
Waste energy production  
Technologies of production and using of alternative fuel, bio-fuel, biogas  
Financial instruments for realization of energy-saving projects

### **Section 2. «Modernization of municipal industry»**

Engineering networks (projecting, construction, reconstruction, and usage)  
Municipal heating systems  
Materials and technologies for heat-isolation  
Method of preparation water for drinking  
Monitoring and cleaning of drinking water's quality  
Water protection and hydro-technical construction, water departments and water drains  
Clarification of industrial and municipal waters  
Municipal road cleaning equipment: streets, squares, parks  
Municipal improvements.Children and sport areas

### **Section 3. «Complex usage of municipal waste»**

Normative – legal basis of waste management  
Transportation, sorting, collecting, upkeep of waste  
Technologies of waste utilization  
Biogas production  
Restoration of polluted territories  
Building and using municipal ranges  
Waste management systems  
Financial instruments of management

#### **Who is forum participant :**

Alliances, producers of techniques and equipment for water purification, municipal heating and energy suppliers, waste collecting and recycling service company,  
Developing companies and their suppliers  
Technique and equipment suppliers for municipal services  
Scientific and technical institutes  
Engineering companies  
Equipment production company for collecting, sorting, storage and utilization of waste, water purification  
Enterprises and technologies for raw materials processing  
Enterprise elaboration and projects of biogas producing  
State institutions, profile institution, agencies, laboratories  
Industrial and ecological organizations, association  
Public programs  
Scientific and technical projects  
Financial and low companies, associations, funds

---

tel.: +380 32 255 10 09; Fax: +380 32 255 20 99, tel/fax: +380 44 201 0475 (6,7)  
E-mail: [eco@lemborg.ua](mailto:eco@lemborg.ua) [www.lemborg.ua](http://www.lemborg.ua)

**Participation conditions**

Type of participations	For associations, universities, social organizations	For Ukrainian and foreign companies
Standard Equipped exhibition space	€90/ sq.m	€110/ sq.m
Raw exhibition space (include security in night time)	€70/ sq.m	€90/ sq.m
Open exhibition space – space outside (include security in night time)	For participants which have booth in exhibition hall — €40/ sq.m For participant without booth — € 50/ sq.m	
Conference presentation standard package	€80	€100
Conference participation	€10	€20
Correspondence participation	€250	€270
Registrations fee	€150	€150

**Standard package of exhibition participants**

- Equipped stand 6 sq.m (wall panels; frieze with name company (20 symbols); 1 outlet 220 B, 1 κBT; 2 lamps; 1 table, 2 chairs, 1 waste basket, carpet covering, coat hunger)
- Placement information in exhibition catalogue; 1 copy of catalogue; 2 participant badges;
- Participation in business – mix (1 representative)

Additional opportunities:

- Free entry to Forum's conferences, seminars;
- Internet link to the participants' web pages from Forum's web-site
- Invitations to visit exhibition for partners – 5 persons
- E-version of catalogue and participators' lectures

**Standard package of participation in conference, seminar, session:**

- Lecture/presentation (30 minutes in specific scheduled time)
- Publication of lecture in digest's higher-attested commission
- 1 copy of catalogue; 1 participant badge; Participation in business-mixer

Additional opportunities:

- Free entry to Forum's conferences, seminars; exhibitions
- Placement of companies' name on the web-site in the participation list;
- E-version of catalogue and participators' presentations

**Standard package for conference participant (listeners):**

- Free entry to Forum's conferences, seminars;
- 1 copy of catalogue; 1 participant badge;
